18-A.2.2 Creating a Mobile Code

Figure 18-22: Mobile Code

Creating a Mobile Code

- Logging into the truck with a WIFI device, a 2.04/2.13 truck will not show the technician badge and password
- Instead a Mobile code must be generated.
- To generate,
  - Login as administrator or maintainer on the display
  - Then under passwords select mobile
  - Follow the instructions and generate a mobile code.
  - Enter mobile code on device
  - Ensure the park brake is set, and you hold the service brake until code is entered
 - Until login is complete prognostics will be greyed out
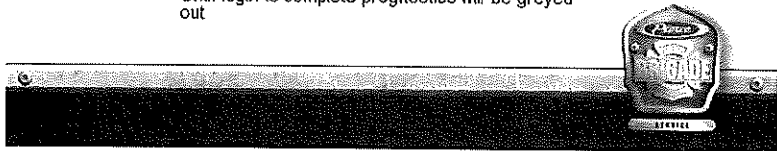

207

18-A.2.3 Prognostics Reset V. 2.13
